

SensorManager::isDataAvailable

```
graph LR; A[SensorManager::isDataAvailable] --> B[Logger::debug]; B --> C[Logger::log];
```

The diagram illustrates a three-step process flow. It begins with a gray rectangular box containing the text 'SensorManager::isDataAvailable'. A blue arrow points from this box to a white rectangular box containing 'Logger::debug'. A second blue arrow points from the 'Logger::debug' box to a final white rectangular box containing 'Logger::log'. All boxes have a thin black border.

Logger::debug

Logger::log
